

Hung and Slide windows

Casement window

Patio Door

DECCO is a vinyl extrusion company, which can offer a wide range of window profile systems intended for many markets around the globe. We have proved ourselves as a reliable and trusted business partner.

We would like to introduce our new product line dedicated especially to the North American market. Those newly designed PVC profiles are made from the highest quality PVC compound. Our newest systems provide high resistance to low temperatures and water penetration regardless of weather conditions.
